## HOW A BURGLAR TARGETS YOUR HOME

### • Case the Neighborhood

Burglars don't want to get caught so there is a lot of upfront investigation that goes on before an attack is planned. If you notice an unfamiliar car or person in the neighborhood lately be on the lookout!

### • Learn Schedules

Burglars don't want to run into a confrontation so they watch the schedules of the people who live in the homes they are targeting. When do the homeowners leave for work, what time do the kids come home from school are some of their considerations. Most burglaries occur in the day because of this.

### • Maintained vs Unmaintained Property

If your shrubs are over grown this can hide a burglar from being noticed while they are breaking into a window to gain entry to your home. Make sure you keep your outside well maintained.

### • Escape Route

Burglars look for how a home is positioned and how easily they can escape without being noticed. Remember burglaries don't typically last that long so burglars look for homes where they can get in and out as quickly as possible.

**Please call us for replacement window stickers if yours are faded.**
