SECURITY MATTERS

DO YOU KNOW WHERE YOUR KIDS ARE?

HOW OFTEN HAVE YOU WANTED TO KNOW WHEN YOUR KIDS HAVE ARRIVED HOME FROM SCHOOL?

With our Total Connect Video Solutions, you can check in any time you want from almost anywhere. With our video system you can look in on your loved ones by viewing video clips on any supported PC, Smartphone or other web-enabled devices.

You will never again worry that your child made it home safely from school; you can receive a picture when they enter the house or when they're not there. Like more and more members of two income families, you are not always able to be there when your kids come home. With our Advanced Security system, you'll have peace of mind knowing that you can look-in on your family anytime.

Advanced Security's Total Connect Video Solutions make it easy to see your loved ones while you are away. So what are you waiting for? Call us today for a FREE in-home demonstration.

EMPLOYEE SPOTLIGHT...

IAN SCHATZ

Ian has been with Advanced Security for 8 1/2 years as our Operations Manager. His role keeps him busy with identifying and resolving issues, staffing and training, strategic planning, communication and technology, purchasing & supplier relations, and ensuring that employees have the resources necessary to be successful in their work. Ian grew up in the wilds of Maple Creek and graduated from Arcata High. While receiving a degree from Humboldt State University he met his wife Elizabeth; together they have two beautiful daughters. In his free time Ian enjoys spending time with family, occasional backpacking and hiking trips, and actively mentoring teen youth ambassadors in the Rotary Youth Exchange program as a host parent and as the outbound student officer for Rotary District 5130. We at Advanced Security value Ian and the countless hours he dedicates to his role in the company and the community.

Honeywell

Authorized Security Dealer

Do you have fire protection included with your home security system? If not, or if you don't know, call us and we can help you out.

- When fire protection is included with your security system it does not raise your monthly monitoring.
- You may even save more on your homeowners insurance.
- Regardless of whether you are using your monitored security system, we are constantly monitoring your fire protection.

Call us today and let's see how we can help you out.

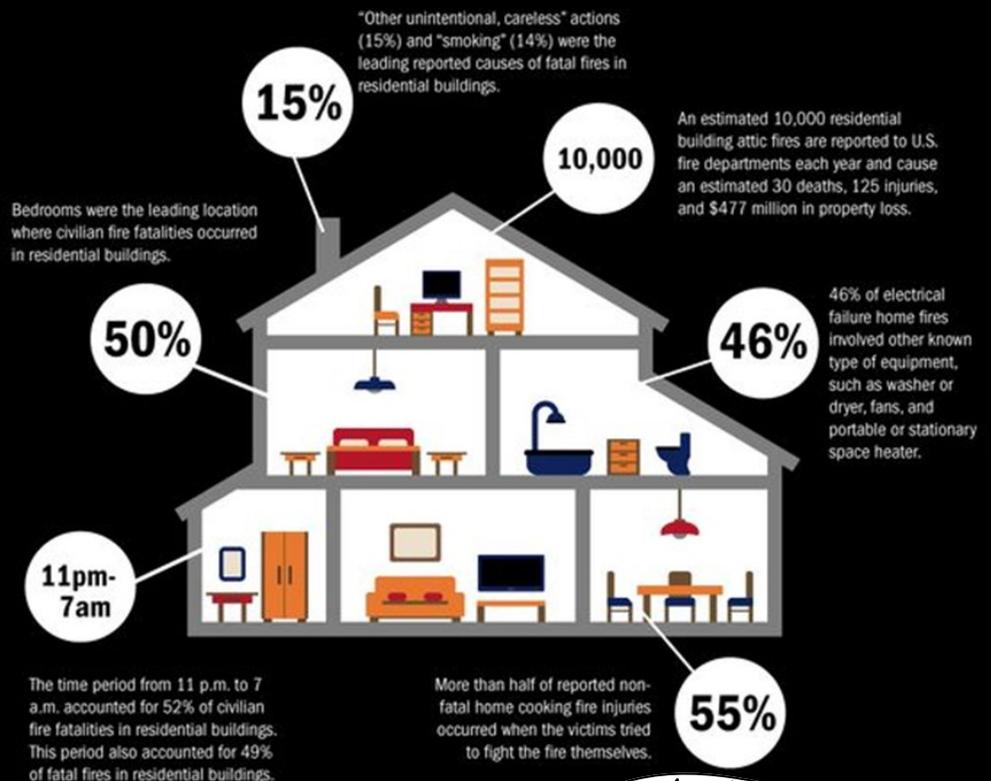

CONGRATS TO OUR "WHAT'S BLOOMING" WINNERS

We held a photo contest asking customers to submit photos of their Advanced Security Systems sign in their front yard. The response was overwhelming and the staff had a hard time picking their favorite. In the end, Bob Felter of McKinleyville won 1st place and received 6 months of free monitoring. "We plan on holding more photo contests in the future." said Cori Reed, Marketing Director, "It seems like our customers had fun with this contest and were excited to share their beautiful yards. We enjoyed the creativity in their photos." For future contests, and chances to win free monitoring, like us on Facebook or visit our company blog at www.advancedsecurity.us/blog

FIRE PROTECTION... WE'VE GOT YOU COVERED.
